

KHWAJA YUNUS ALI UNIVERSITY

School of Science and Engineering

Department of Computer Science & Engineering

Spring 2025

Program: B.Sc. in CSE (Batch: 18th) 1st Year 2nd Semester

Course Title: Electrical Circuit

Course Code: CSE 0713-1103

Assignment-01

Deadline: February 06, 2025

Total Marks: 10

INSTRUCTIONS: Please do not copy, because electricity bill of every student's household is different. If you copy other, marks of both will be reduced.

CLO01	To be able to know different electrical terms and define them with examples
-------	---

Topic: Calculation of Electricity bill of your own household.

Steps:

1. Write down the number of various equipment's available in your household.
2. Write down the ratings of every equipment.
3. For each equipment, estimate the amount of time used.
4. Find Total energy consumed (in unit).
5. Find the energy rate using energy consumption range.
6. Find total cost of unit consumption.
7. Take an electricity bill paper of your household and find out other costs except unit consumption cost.
8. Add all of the costs and find total electricity bill.
9. Finally compare this bill with the bill of paper.
10. What would be the possible reason of variation of result (if it varies).
